

# LUVKUSH SINGH

+91 8090274171 | luvkushsingh03@gmail.com | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence, Machine Learning, and Data Science. Proficient in Python, SQL, Data Structures & Algorithms, statistical analysis, data wrangling, and data visualization, with hands-on experience in machine learning model development, natural language processing (NLP), deep learning, and dashboard reporting. Seeking a Data Science, Machine Learning, or Data Analytics internship to apply analytical, programming, and problem-solving skills to real-world business and technical challenges.

## EDUCATION

### VIT Bhopal University

2023 – 2027

B.Tech – Computer Science Engineering (AI & ML) | CGPA: 8.4 / 10.0

Relevant Coursework: Machine Learning, Deep Learning, Data Science, Statistics, Cloud Computing (AWS), Data Wrangling, Microsoft Excel

## CERTIFICATIONS

- Google IT Support Professional Certificate — Google / Coursera
- Deloitte Data Analytics Job Simulation — Forage
- TCS iON Career Edge – Young Professional — TCS iON
- NPTEL Cloud Computing Certificate — NPTEL
- Prompt Engineering Certificate — LinkedIn Learning

## PROJECTS

### AI Language Translator [GitHub](#)

- Developed an AI-based language translation system using Microsoft Azure Cognitive Services, supporting real-time translation across [X]+ languages.
- Applied NLP techniques and integrated the Translator API using Python, reducing manual translation effort and enabling real-time multilingual communication.

### Product Review Sentiment Analysis [GitHub](#)

- Built a machine learning classification model on [X,000]+ product reviews to predict customer sentiment (positive/negative/neutral).
- Engineered text features using TF-IDF and trained Logistic Regression and Naive Bayes classifiers in Python, achieving [XX]% prediction accuracy.

### AI Voice Agent – Virtual Receptionist

- Developed an AI-powered voice assistant using Vapi.ai to handle real-time customer queries and automate front-desk conversations.
- Designed conversational workflows and applied prompt engineering techniques to improve response accuracy and reduce query handling time.

### Sales Analysis Dashboard [GitHub](#)

- Built an interactive Tableau dashboard analyzing sales performance across [X] product categories/regions to surface business trends.
- Applied data analysis and visualization techniques to identify key performance drivers, supporting data-driven business decisions.

## EXPERIENCE

### VITronix Club, VIT Bhopal — Core Member

Sep 2024 – Present

- Collaborated on AI and data-driven projects within a technical club, contributing to [X]+ initiatives in a team-based environment.

### Deloitte Data Analytics Job Simulation — Forage

2024

- Completed practical, simulation-based tasks involving data analysis, data visualization, and business insight generation.

### AI Tools & ChatGPT Workshop — Be10x

2024

- Gained hands-on experience applying generative AI tools to real-world productivity and business use cases.

## SKILLS & INTERESTS

---

**Languages:** Python, Java, SQL

**Core Concepts:** Data Structures & Algorithms, Machine Learning, Deep Learning, Statistics, Regression, Classification, NLP, Data Science, Data Analysis, Problem Solving

**Data Tools:** Pandas, NumPy, Microsoft Excel, Data Cleaning, Data Wrangling

**Visualization:** Tableau, Power BI, Matplotlib, Seaborn

**Technologies:** Scikit-learn, TensorFlow

**Tools:** Git, GitHub, Jupyter Notebook, Google Colab, AWS

**Domains:** Data Science, Data Analytics, Artificial Intelligence, Machine Learning
